Non binding dimensions, expressed in mm.

* Dimension determined from the average of the grip "s" min and max values.

Standard
 On demand
 Not manufactured

Material: screw: steel 8.8 class
rivet: cold formed steel
Finishing: white zinc-plated
Thread: ISO 6 g metric
Example: M 6 threaded stud rivet, 15 mm
long (l3) after deformation,
applied on a sheet with 2,00 mm
thickness:

ETCP M6X20
