

Our Mission and our Values

OUR MISSION

'To establish ourselves in the market as a company in continuous evolution and technological innovation, in order to be able to offer our customers more and more solutions and services in step with the times, and sometimes ahead of them thanks to technologically advanced solutions'

OUR VALUES

- We want our people to work to contribute methodology and innovation to the company
- We have a reward system that underpins managerial action based on objectives and results
- We constantly invest in Research and Development in order to create increasingly effective products that meet our customers' needs
- We comply with labour and procurement regulations; ethics and professionalism are the basis of our daily work
- We support the fight against violence, human rights violations and environmental degradation in the extraction and marketing of certain minerals in the geographical area defined as the 'Conflict Region', which includes the Democratic Republic of Congo (DRC) and neighbouring countries through monitoring of raw material suppliers
- We can only win if we are cohesive, being the best in terms of: competence, quality of products and services offered
- We listen to our customers' needs
